

JULY 2009 OCCA SAFETY REPORT: DRIVING SAFETY

Did you know...???

Most Americans use transportation, either personal or public, on a daily basis. Additionally, many workers drive their own car or a company-owned vehicle as part of their job duties. All of this driving can lead to the potential for injuries and death. However, you can take steps to reduce possible injuries, death and property damage. (Source: Ohio Bureau of Workers Compensation, 2009)

Whether driving personal or company vehicles, consider the following:

- **Fasten your seatbelt**
- **Prevent distractions while driving such as loud music, cell phone use, chatter**
- **Pay attention to the road at all times**
- **Adjust your driving for weather conditions**
- **Recognize aggressive driving**
